Full Stack Web Developer with a passion for learning. Building computers as a hobby, now taking that love for technology to a new level. Excellent problem solver with the dedication needed to get things done. Ability to look at things from a different perspective. Extremely positive attitude no matter what the outcome. Always looking for a challenge to expand my knowledge and skills.

Skills: HTML5, CSS3, JavaScript, ES6, JQuery, Node.js, Materialize, BootStrap, Firebase, MySQL, Git, Github, Command Line, Heroku, Handlebars, Express, Sequelize, React and many many more to come

APPLICATIONS BUILT

Train Scheduler

- A Train schedule app that lets you post a train and see when it will arrive.
- HTML5, CSS3, Materialize.css, JavaScript, JQuery, Firebase, Moment.js
- <https://humanjboof.github.io/Train-Scheduler/>
- <https://github.com/HumanJBooF/Train-Scheduler>

Mongo-Scraper

- In this app you can use axios and cheerio to scrape the website pcgamers' news section for all the current articles. You can then save the articles, add notes for each article, unsave the article and delete the note. This is all using MongoDB and Mongoose
- Node.js, JavaScript, NPM inquire, NPM chalk, NPM figlet
- <https://mongo-pcgamer-scrapper.herokuapp.com/>
- <https://github.com/HumanJBooF/mongo-scrapper>

React-Click-Game

- This app was built using create-react-app, it is a memory style game. There are 12 images, the user starts by clicking on an image, once clicked the images will shuffle, keeping track of how many times you have clicked BUT watch out! If you click the same image twice, YOU LOSE!.
- HTML5, Materialize, CSS3, React, React-Dom, React-Scripts, gh-pages
- <https://humanjboof.github.io/react-click-game/>
- <https://github.com/HumanJBooF/react-click-game>

Bamazon

- An 'amazon-like' store front for CLI, that allows you to buy and add items to the inventory (database)

- **Node.js, JavaScript, NPM chalk, NPM inquirer, NPM mysql, NPM cli-table-redemption**
- <https://github.com/HumanJBooF/bamazon>

WORK EXPERIENCE

Danvers Butchery, Danvers, Massachusetts

2017 - Present

Meat Cutter

Producing steaks to specific specifications. Keep track of inventory for future orders and ensure a clean environment according to USDA regulations.

Hale Street Tavern, Beverly Farms, Massachusetts

Chef, 2015 - 2017

Created luxurious dishes of food and sushi. Ensure that all plates come out on time and are beyond perfect. Managed time was a huge factor in making sure everything came out as ordered and on time.

EDUCATION

University of New Hampshire, Portsmouth, NH
